Foundational Wetland Delineation™ Training

Defensible Wetland Identification Using the USACE Manual & Regional Supplements

FWD™

Professional Foundation & Certification Pathway

This course establishes a consistent technical foundation for professionals who identify, evaluate, or rely on wetland boundaries as part of environmental review, permitting, design, or land management. FWD™ is the recommended entry point within The Swamp School's *Aquatic Delineation Training & Certification Pathway* and serves as the foundation for wetland indicators and field methods.

PURPOSE

Provides a credential that supports internal qualification and QA/QC oversight through standardized wetland delineation methods and is recognized within the industry for excellence in practice.

SCOPE

- Understand federal guidance
- Identify wetland indicators
- Apply field methods
- Document delineations
- Build technical foundation

APPLICATION

FWD™ is available online, hybrid, or in-person, and include a 12-month access license, course updates, and a certificate of completion. Individual and team options are offered to meet organizational needs.

Designed For:

- Environmental consultants & wetland delineators
- Civil & environmental engineers
- Regulatory & agency support staff
- Energy, utility, & infrastructure professionals
- Professionals whose work is reviewed / relied upon

Professional Recognition

Pre-approved for continuing education credit by:

- Society of Wetland Scientists (SWS / PWS)
- Society for Ecological Restoration (SER)

SwampSchool

Individual & Group Pricing Available
